

CASE STUDY

Ron Groves Park, Oxfordshire

Ritotech are lighting the way for pedestrians in Kidlington, Oxfordshire after installing solar-powered 'GFS15' columns.

Overview

Graham Kearney, Facilities Manager at Kidlington Parish Council approached Ritotech to provide a lighting solution for Ron Groves Park following feedback from the public that it 'lacked street lighting'.

The park sees a footpath run along one side of the perimeter between two areas of housing on Maple Avenue.

It was important to KPC that they used a local solutions provider that could supply and install an 'inconspicuous' lighting solution which also gave consideration for its environmental impact.

Product specification

Ritotech supplied and installed three GFS15 solar units, with extra solar panels manufactured by trusted partner, Acrospire.

The GFS15 boasts the following benefits, which made it the perfect choice for Ron Groves Park:

- Zero running costs
- PIR Integrated motion centre
- Li-ion integrated battery pack
- Elegant design

RITOTECH LTD

Results

The solution provided by Ritetech has had an immediate impact on the community of Kidlington; helping them feel safer when visiting Rob Groves Park by night.

The GFS15 solar lights are set to provide 10% of its full lighting potential as standard, but when the PIR motion sensor is activated they light up to 100%. A further energy-saving feature which made them the preferred choice for KPC.

Conclusion

Graham and the team at Kidlington Parish Council are very happy with the project installation and are pleased that the community now feel safer when walking, jogging or cycling through Ron Groves Park.

It's believed that the full effects will be felt in Winter when the nights are longer and there is less natural daylight to accompany the Park's visitors.

Kidlington Parish Council are happy to recommend Ritetech and look forward to working with them again on future projects.

Kidlington Parish Council is one of the largest Councils in Oxfordshire.

Kidlington Parish Council is the third tier of Local Government for Kidlington. They work alongside Cherwell District Council and Oxfordshire County Council who provide other services over a larger area, such as roads, planning, waste collection and social services.
